Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the application has been filed with informal drawing which are acceptable for examination purposes only. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance.

The instant invention generally relates to the field of water safety at public swimming beaches.

Claim 1, providing a system for detecting rip tides in the vicinity of a seashore by identifying a number of telltale traits, wherein rip tides strike the shore directly and bounce back sharply as opposed to normal waves which hit the shore obliquely and dissipate their energy before bouncing back, and wherein rip tide waters have different color characteristics than normal seashore waves.

The invention is novel due to the different surface texture than normal seashore waves, and analyzing said images to detect the presence of rip tides, said analysis involving image pre-filtering enhancing the telltale signs of typical rip tides, and

Art Unit: 2625

converting said images into digital data processed for classification as NORMAL or RIP TIDE.

The closest prior art of record (Huang) teaches computer implemented physical processing method for two-dimensional nonlinear, nonstationary physical signals. But do not suggest filtering enhancing the telltale signs of typical rip tides, and converting said images into digital data processed for classification as normal or rip tides.

These key features in combination with the other features of the claimed invention are neither taught nor suggested by the art of record.

Claims 1-21 are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
